Victoria Police to Take Receipt Of Their First Dräger Alcotest 9510 Evidential Breathalyzer

Drink Driving Offenders Will Experience New Technology Soon

Melbourne, Australia – The Laboratory Manager from Victoria Police, Glenn Bowkett, together with the Forensic Officer, Tibor Ducza, have taken receipt of the first of a total of 270 Dräger Alcotest 9510 breathalyzers. The official hand-over took place during a factory training visit of the two Victorian representatives at Dräger's head office in Luebeck. Representatives from Dräger's Strategic Business Field Diagnostics didn't want to miss the opportunity to present the first unit to Glenn and Tibor.

Following the announcement from Victoria Police last year that Dräger would be their preferred supplier of their next generation evidential breath analysis instruments, the supply of all 270 units will be carried out in May and June 2011.

Dräger is proud to have secured this contract and is looking forward to working with Victoria Police to ensure a smooth transition with the equipment and a continued strong partnership.
